With its origins in the construction and IT worlds, Net-AV has been providing high quality AV and IT integrations to the Mid-Atlantic region for nearly 30 years. We've built our business on referrals from satisfied repeat customers who appreciate our innovative solutions and reliable support. We bridge the knowledge gap between AV and IT systems so you don't have to. Our expertise in both of these technical realms is what allows us to deliver value beyond clients' expectations, and makes us expert providers of presentation, collaboration, and communication tools that are vital in the modern business world. At Net-AV, we aim to exceed expectations.

Net-AV is a video communication and IT integration company, specializing in presentation, communication, control and collaboration solutions for clients ranging from government agencies and Defense contractors to Fortune 1000 corporations. We are:

- Client-centric and service-oriented
- Specializing in unique solutions to technically challenging problems, from AV-as-a-Service and cloud-based offerings, turn-key and virtual videoconferencing systems and unified communications to custom interactive presentation and collaboration technologies. System monitoring and remote management services outsource your AV/IT headaches to our technical experts.
- Systems designers, integrators, and project managers whose specialized IT/AV integration experience gives us a distinct and unparalleled advantage over other traditional audio/video systems integrators

Our Mission: Our company is dedicated to building long term relationships with our clients, vendors, owners and employees, based on respect, dignity and trust. We pledge to guide, inform and assist each relationship partner in a pleasant, predictable and consistent experience.

We are committed to providing the best solutions, to providing the ideal tools and training to make the job more effective, and to never compromising quality for the sake of profit, price or production. In the end, Net-AV is committed to the continued growth, development, and professional well-being of our partnered relationships, and to the development of long-term win-win opportunities.
